ABOUT MOTUS O DANCE THEATRE

Since 1990, Motus O dance theatre has toured extensively throughout Australia, England, the USA and Canada, performing at theatres and Festivals as well as at schools. Known for their physicality, inventiveness and sense of humour, they are loved by drama and dance critics as well as educators and students. They have created seventeen original full length works.

PETROUCHKA

*Motus O was commissioned by the **Royal Conservatory** to create their own very special version of Petrouchka. They created a show that children love all whilst introducing them to Stravinsky, one of the Twentieth Century's greatest composers. In the hands of Motus O the music and the story of Igor Stravinsky's original ballet come alive for a young modern audience with dance, mime, drama and physical comedy. It is the story of three marionettes brought to life by a wizard, including Petrouchka the little clown with the big heart. Petrouchka may be small and awkward but his enthusiasm for life*

enchants us all. Motus O has performed Petrouchka to the delight of students in several hundred schools.
