

MOVING STORIES

STROKES OF INSIGHT - ACTS OF GENIUS

Imagine a world where you find it challenging to communicate your thoughts, your emotions, your dreams and your needs. A world where your body and mind are saying different things and your voice is being lost in translation. For thousands of individuals who live with post-stroke aphasia and within the autism spectrum that world is a reality. After 3 years of research and workshops, MOTUS O presents several short visual vignettes of real life stories that are engaging, powerful and a testament to the human spirit. Join us as we celebrate and give voice to those who hear us but cannot be heard.

Created by Co-Artistic Directors James Croker, Cynthia Croker and Jack Langenhuizen, **MOVING STORIES** is a MUST SEE as the audience will witness through dance, text, video, music and lighting the incredible stories of empowerment.
