PRESENTS

VARIATIONS IN LOVE

THE COMPANY

Working together since 1990, the three Artistic Directors of this company and recent award winners of the "Contact East Touring Award" create works of physical inventiveness that portray the human experience through humour and pathos. Innovative costuming, props, sets and music are integral components of their visually stimulating, physically challenging and communicative work. MOTUS O has toured throughout Australia, England, the USA and Canada.

VARIATIONS IN LOVE

Nothing has intrigued, inspired or frustrated humans more through history than the elusive emotion love. MOTUS O continues this trend with a series of cogitative, succinctly energetic and profoundly humorous short works.

Variations in Love is comprised of several dance and physical theatre pieces that were choreographed by company members James Croker, Cynthia Croker and Jack Langenhuizen. These works include a collage of dance forms, from pointe to high impact contact improvisational movement. Music in *Variations* is both contemporary yet eclectic including original scores by Canadian composer/musician Peter Jarvis. Video projection blended with lighting designs by Bonnie Armstrong extends the expression and emotion of each choreographer's work creating absolute magic on stage.
